Date Accomplished	FEBRUARY 15, 2018 2:00 PM
Name of School Head	IVY T. DALISAY
Name of PSDS	PORTIA M. MALLORCA, Ph. D., CESO V

II. NARRATIVE REPORT/EXECUTIVE SUMMARY

To ensure the safety of the students and faculty and to install in them the sense of preparedness in case of an unexpected earthquake, Yubo Extension High School together with Yubo Elementary School conducted the Nationwide Simultaneous Earthquake Drill at 2:00 PM, February 15, 2018.

The students and faculty members were not informed except the school head and the school DRRMC Coordinator of the planned activity to assess the teachers' and students' efficiency to conduct and behave themselves in accordance to the **DO'S** and **DON'TS** during an earthquake as briefed in a series of earthquake drills previously conducted. Concluding the said activity was a reorientation on the things to be duly observed during an actual earthquake by the school head and the school DRRMC Coordinator. Internal stakeholders were once more reminded to take it seriously and never to take it for granted considering that the calamity spells a life and death situation.

First, the bell was rung to signal students to cover their heads with their hands or find a secure place to hide. The bell was shut down and the students went out from the rooms while covering their heads to proceed to an open field free from falling debris and distant from large buildings or structures that may collapse any time due to an earthquake. Then pupils/students reiterated that they would not be sent home if they were not fetched by their respective parents/guardians.

III. ACCOMPLISHMENT OF OBJECTIVES

OBJECTIVES	STRATEGIES	ACTIVITIES	RESULTS
<p>Conduct an earthquake drill activity.</p> <p>Disseminate information on earthquake preparation and awareness.</p>	<p>Involved more participants to join the said activity</p>	<ul style="list-style-type: none"> • Earthquake Drill • Open Forum 	<p>ACCOMPLISHED</p> <p><i>(Students, teachers and stakeholders were able to value the importance of the earthquake drill and the protocols to be followed).</i></p>

IV. SCHOOL EVACUATION PLAN
